# PROGRAMS & WORKSHOPS

## **Pine Needle Basket Workshop—2 Day Class**

**Tuesday, February 15th, and Thursday, February 17th, 2011**

**9:30 to 3:30 p.m.**

**Sky Peaks Community Room, Instructor: Margaret Marshall**

Tuesday's workshop will concentrate on pine needle starts. You will learn 3 different starts, one of which you will finish at home. This start will be your base for the 3rd Thursday workshop. On Thursday, you will begin forming the sides using the Mariposa Stitch. You will also learn how to end your basket. The fee for the 2 days is \$50, payable to Margaret Marshall at the time of sign-ups. If you have any questions, please call her at (775) 825-4397.

### **MATERIALS NEEDED FOR THE THREE STARTS AND FOR THE MARIPOSA STITCH BASKET:**

A nice bundle of dyed pine needles, a couple of Chenille and Tapestry needles (I think they are #18), one spool of #3 waxed linen thread, either matching or a contrasting color to the dyed pine needles and a small pair of scissors. Needle nose pliers are always helpful. For the other 2 starts you can use dyed or natural pine needles and raffia and/or artificial sinew. I do not recommend raffia or artificial sinew for the project basket as neither are stable enough to hold the rows apart. If you bring raffia for your non-project starts, please bring a small tub to dampen your raffia. If you wish to use artificial sinew, you may order from Allen's Basket Works, (760) 320-4467. I use Tan Sinew, 400'. Last time I purchased it was \$12.50 + shipping.

To begin a basket, pine needles must be damp. The night before the workshop, soak the needles in hot water for about an hour. Then wrap in about 6 to 10 sections of damp paper towel and place in a plastic bag (I use the bag our newspaper comes in). Put in refrigerator to mellow overnight.

**(DON'T FORGET TO REMOVE THEM FROM REFRIGERATOR IN THE MORNING AND BRING THEM TO THE WORKSHOP!!!)**

### **PINE NEEDLE DYEING INSTRUCTIONS:**

- 1) Wash **8-ounces pine needles** then soak separately for about 20 minutes.
- 2) Mix  $\frac{1}{2}$  **gallon of water** and **3 TBS Angleus leather dye** in a metal cooking pot (large enough to sub-merge pine needles) and bring to a boil.
- 3) Add cleaned and soaked pine needles to the boiling water and dye.
- 4) After boiling needles for 20 minutes, add **1 cup white vinegar**.
- 5) Boil for additional 10 minutes (boil longer if you want needles darker, use your judgment).
- 6) Remove pine needles and rinse thoroughly with cold water.
- 7) Lay pine needles out on newspaper to dry.
- 8) Do not use pine needles until completely dry as they shrink.

**NOTE:** The ingredient amounts should be doubled for 16 ounces of pine needles. It is not recommended to dye more than 16 ounces of pine needles in a batch.

**\*\*There is no 3rd Saturday workshop this month due to the Presidents' Day holiday weekend.**
